The coqui-free certification program was created to prevent the spread of coqui frogs in Maui County. Participating nurseries and plant providers must adopt specific management practices to prevent the spread of coqui frogs before they can market themselves as "Coqui-Free." The Maui Invasive Species Committee is the certifying agency, granting certification after a series of interviews and site visits conducted by MISC and/or MoMISC.

Visit www.coquifreemaui.org or call 573-MISC (6472) to learn more.
